PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience in SQL, Power BI, Python, and Excel. Skilled in building interactive dashboards, performing data analysis, and generating actionable business insights. Delivered 10+ real-world analytics and machine learning projects, enabling data-driven decision-making and performance optimization.

TECHNICAL SKILLS

- **Data Analysis & BI:** Power BI, Advanced Excel, DAX, KPI Design, Dashboarding, EDA
- **Programming:** Python (Pandas, NumPy, Matplotlib, Seaborn,sklearn)
- **Databases:** SQL, MySQL
- **Machine Learning:** Regression, Classification, Feature Engineering, Model Evaluation
- **Tools:** Jupyter Notebook, VS Code, Power bi,

EXPERIENCE

Data Analyst Trainee — Zephyr Technology Solution | Apr 2025 – Jan 2026

- Developed 5+ interactive Power BI dashboards to monitor KPIs and business performance
- Cleaned and transformed datasets using SQL and Python, improving data accuracy and usability
- Performed EDA to uncover trends, enabling better business decision-making
- Built end-to-end analytics solutions including dashboards, SQL reports, and ML models
- Developed Flask-based applications for real-time predictions
- Guided peers in SQL, dashboard design, and data analysis

PROJECTS

Financial Analysis Dashboard (Power BI) | 

- Analyzed multi-year financial data (revenue, expenses, net worth)
- Built KPIs including Profit Growth and Cash Flow
- Created interactive dashboards with slicers for insights

Hospital Analytics Dashboard (Power BI) | 

- Built dashboard analyzing patient data, admissions, and treatment trends
- Designed KPIs for patient count, department performance, and outcomes
- Enabled data-driven insights for healthcare decision-making

Power BI Business Dashboard (Zephyr) | 

- Built dashboards; created DAX KPIs; identified key business trends

Customer Churn Prediction (90%) | 

- Built classification model; identified churn drivers; deployed Flask app

House Price Prediction (96.2%) | 

- Developed Random Forest model; feature engineering; deployed web app

UPI Fraud Detection System | 

- Built fraud model; implemented anomaly detection and alerts

SQL Portfolio Projects

- Designed databases; executed advanced queries; generated reports

EDUCATION

Bachelor of Science (Computer Science & Mathematics)

University College Mangalore | 2024 | CGPA: 7.5

CERTIFICATIONS

- Data Science Internship Program — Zephyr Technology Solution
- Kaggle Certificate — Deep Learning

ACHIEVEMENTS

- Completed 10+ end-to-end analytics and machine learning projects
- Strong ability to convert data into actionable insights
- Effective communicator with strong analytical thinking
